LOCATION: Buck Springs Resort is located on 20 acres of dense, tall pines in an exclusive residential area near Pinetop, between Pinetop Lakes Country Club and Pinetop Country Club, approximately 1.8 miles from Hwy 260 -away from the traffic of Hwy 260, but close to Pinetop, restaurants, and activities. As you head south on Hwy 260, turn left at the stoplight where Buck Springs Road takes off from Hwy 260. We are located at 6126 Buck Springs Road, about 2 miles from the city limits of Pinetop Arizona.

DESCRIPTION: Select from 20 one-bedroom cottages and/or 4 three-bedroom two story townhouses. The bedrooms are separate from the living room and kitchen areas. All are furnished housekeeping units with fully equipped kitchens, complete with stoves, refrigerators, dishware, silverware, cookware, microwaves, toasters, coffee makers and complimentary coffee. Bath and bed Linens are also provided. You may enjoy cable TV in each living room, as well as a wood burning fireplace (locally cut firewood is available for a nominal fee). *All units also have a pullout sofa in each living room, which is great for kids or additional guests.

QUEEN BED UNITS: 12 cottages have one queen bed in the bedroom, as well as the pull-out sofa in the living room. 8 of these cottages are built "Duplex Style" with some open area between each set of duplexes. Each of these 8 queen units has a 9 X 12 private covered front porch, and is approximately 542 square feet. The other 4 queen units adjoin the 3 bedroom townhouses and share a common front porch, and have a slightly different floor plan than the duplex type of units.

DOUBLE BED UNITS: 8 cottages have two double beds, as well as the pull-out sofa in the living room. These cottages are built "Duplex Style" with some open area between each set of duplexes. Each set of double bed duplex units share a common 4 X 22 covered front porch, with separate steps leading up to the door of each unit. These units are approximately 590 square feet.

3 BEDROOM, 2-STORY TOWNHOUSES: The three-bedroom townhouses have a queen bed in the downstairs bedroom, which lies across the hallway from a half bath downstairs. The other two bedrooms are upstairs - one of which has a queen bed, the other has two full beds. A full bath upstairs is separate from, and accessible to, both upstairs bedrooms. In addition to the pull-out sofa which is found in the living room downstairs, a single twin bed is located under the stairwell downstairs. These townhouses easily sleep six people, and can accommodate 8-10 people, depending on your sleeping arrangements. The roomy kitchen is located down stairs, and has a sliding glass door which leads to a back porch. These units also share a common covered front porch. These townhouses are really spacious, containing approximately 1,200 square feet, with a vaulted ceiling in the living room.

RESORT ACTIVITIES/SETTING: Buck Springs Resort has a lovely central outdoor "courtyard" area which contains a central barbeque facility, with both a large brick wood/briquette and gas barbeque situated on a grassy area, complete with picnic benches. This central "courtyard" area is located in the middle of the Circular drive which leads to the one bedroom units. Some small individual grills are also available for briquette grilling on the premises. A horseshoe pit and basketball hoop is also on the grounds. There is plenty of room to walk your pet, and board games, balls and frisbees etc. are available for the kids (or adults!) to play with.
